

Sandy Green

President and CEO
Reece & Nichols Alliance, Inc.

Where **SOLD** Means More

There's no telling what Sandy Green can accomplish.

Starting her real estate career as a working mother, Sandy Green defied those who told her she would never make it in the business. Now as president and CEO of Reece & Nichols Alliance Inc., she manages systems serving Reece & Nichols Alliance offices throughout Kansas and Missouri.

In addition to her hard work, determination and perseverance, Sandy is a strong advocate for her team, lending support and encouragement every step of the way.

When Sandy began her career, she quickly moved through the ranks, opening her first franchise office just a few years later. Within the first five years, the office was honored among the top 1 percent of the nation's Century 21® franchises. She continued to improve production and increase profits, and eventually earned recognition for leading the top-performing office in the Midwest.

In her spare time, Sandy enjoys horseback riding, reading and spending time with her husband, Warren; daughters, Lori and Lynn; son-in-laws, Bob and Robbie; and their eight grandchildren.
